

BLACKBEARDS ADULT RESORT

PLEASE READ THIS BEFORE SUBMITTING YOUR RESERVATION REGARDING THE REGULATIONS OF COVID-19 IN THE DOMINICAN REPUBLIC

Airport/COVID-19 Testing...

Until recently the government had required a negative COVID-19 test upon arrival (within 5 days) or risk a random government test at the airport. Fortunately, this testing procedure is **NO LONGER REQUIRED!** (if you happen a negative test please bring it with you anyway).

Employees and Chicas...

Unbelievably! The government has decided not to provide travel permits for either employees or chicas during the curfew hours. The great news is that all my nighttime employees and **CHICAS** have agreed to help circumvent this requirement (travel permit) and have accepted my offer to stay at the hotel and provide all necessary services.

Reservations/Cancellations/Changes...

Shit happens, and I want to ensure you that will be total flexibility regarding reservations, cancellations, and changes. DO NOT WORRY about these issues as there will be no repercussions regarding any changes.

Curfew...

As part of the continued state of emergency all Dominicans and tourists will be subject to a curfew from Monday – Friday: 7:00 PM – 5:00 AM and Saturday – Sunday: 5.00 PM – 5.00 AM, This curfew (for now) will extend through October 18th, 2020.

Masks...

Wearing a mask and social distancing are mandatory in public areas in the Dominican Republic outside of the hotel. Depending on the occupancy we may be forced to ask you to wear a mask while in the common areas of the hotel. We need to cover our ass (mouth) in the event of a surprise visit by the Department of Tourism (this could shut us down) as well as respect for other Pirates that are staying at the hotel.

Bottom Line...

We will operate the hotel as normal, and you can expect the bar and restaurant to have a full menu; along with the great service that we always strive to provide. The only inconvenience will be the nighttime curfew. The beaches will be open and there will be no restrictions on daytime travel or excursions.

Over the next several weeks few we will provide additional requirements regarding tourist travel to the Dominican Republic.

Your Safety...

I have contracted ECO-LAB (one of the largest chemical and sanitizing companies in the world) to come in and train every single employee on how to use their products to sanitize rooms, common areas and provide hand sanitizers throughout common areas of the hotel. We do, however, recommend you bring your own masks and hand sanitizer for your room as these products are difficult to procure locally.

As all my Veteran Pirates know, I am a fanatic about cleanliness and can assure you that we will exceed even the CDC recommendations, my promise is to keep you safe.

Please check with the Department of State and your airline regarding any issues that you may encounter with travelling to the Dominican Republic.
