BLACKBEARDS ADULT RESORT

PLEASE READ THIS BEFORE SUBMITTING YOUR RESERVATION REGARDING THE REGULATIONS OF COVID-19 IN THE DOMINICAN REPUBLIC

Airport/COVID-19 Testing…

Airport/COVID-19 Testing…

Effective **December 6, 2021** all air travelers 2 years and older are required to show a negative pre-departure COVID-19 viral test taken the **day before** they board their flight to the United States, regardless of vaccination status or nationality. You must show your negative result to the airline before you board your flight.

All guests can get this test at Laboratorio Cubanor in Puerto Plata — Antigen test for COVID is $45 or 2500 peso RD — takes one hour for the results — all guests from Blackbeards will be taken care of right away.

If you recently recovered from COVID-19, you may instead travel with documentation of recovery from COVID-19 (i.e., your positive COVID-19 viral test result on a sample taken no more than 90 days before the flight's departure from a foreign country, and a letter from a licensed healthcare provider or a public health official stating that you were cleared to travel).

Currently it is not necessary to present vaccination cards, or negative tests for COVID-19 to enter the Dominican Republic. Neither are these requirements necessary to be in hotels, or to take excursions. Random tests are carried out at the airports upon entry to the country.

To enter establishments outside hotels, such as bars, restaurants, shops and other closed establishments, the presentation of a vaccination card is required.

Reservations/Cancellations/Changes…

Shit happens, and I want to ensure you that will be total flexibility regarding reservations, cancellations, and changes. DO NOT WORRY about these issues as there will be no repercussions regarding any changes.

Your Safety…

I have contracted ECO-LAB (one of the largest chemical and sanitizing companies in the world) to come in and train every single employee on how to use their products to sanitize rooms, common areas and provide hand sanitizers throughout common areas of the hotel. We do, however, recommend you bring your own masks and hand sanitizer for your room as these products are difficult to procure locally.

As all my Veteran Pirates know, I am a fanatic about cleanliness and can assure you that we will exceed even the CDC recommendations, my promise is to keep you safe.

Please check with the Department of State and your airline regarding any issues that you may encounter with travelling to the Dominican Republic.
